

CALDARA

100% MADE IN ITALY

MO00047/R
Blood collection/relax synchro armchair
with wheels

MO00047/R

BASIC CONFIGURATION

The armchair is made of metal with an oval, square and round section. An oval tubular 50x25x1.5 was used for the legs; for the central frame a 30x30x1.5 square and for the cushions a round pipe diam.25x1.5. The structure is entirely painted with white epoxy powder.

The top in fireproof high-density class 1 IM rubber is covered in class 1 IM flame-retardant coated (skai) fabric. The synchronized adjustment of the two cushions is adjustable by means of a gas spring activated by a comfortable handle placed behind the backrest. The inclination of the backrest is equal to about -5° in the Trendelenburg.

The armrests are equipped with a joint that guarantees a perfect inclination during their use; they can be adjusted in height and extracted rotated 180° . The wheels are swivelling 2 with total brakes.

TECHNICAL FEATURES

The construction materials are square oval tubular and round furniture from Uni 7947/81 and 8913, DIN 2394, threaded bushings in AVP, Fe plates. The padded top has a wooden material base, the class 1 Im fireproof expanded polyurethane padding is covered with a class 1 Im fireproof coated fabric (skai, imitation leather). The structure follows a process of phospho-degreasing, rinsing and application of the polymerised powder paint at 200° . The colour is white Ral. 9003, its minimum thickness is 70/80 microns. The finish is glossy.
