

CALDARA

  
100% MADE IN ITALY

3XL37P  
Gynaecological height adjustable couch

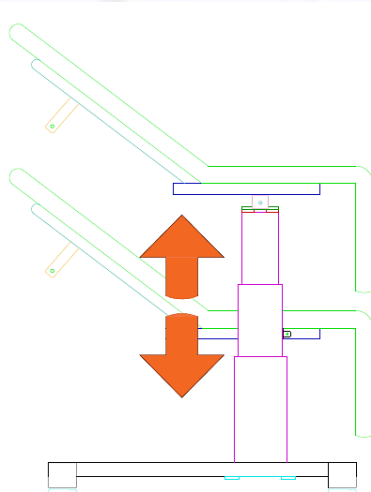

# 3XL37P

## BASIC CONFIGURATION

The armchair is made of tubular furniture with remarkable performance characteristics that guarantee stability and sturdiness. The construction materials are square, rectangular and round furniture tubes Uni 7947/81 and 8913, DIN 2394, threaded bushes in AVP, flat in FE.

The very compact base of the structure allows the operator to get closer to the patient, making it very practical and comfortable to use. The upper surface and the leg loops are in high density foam covered in coated fabric (skai, imitation leather) fireproof class 1 IM. The density of the rubber used guarantees comfort and proper support of the patient during the examination.

The electrical parts comply with the regulations in force in the hospital field.

## TECHNICAL FEATURES

The structure has excellent manoeuvrability determined by the use of 3 electric actuators controlled by a push-button panel.

The very sturdy and resistant central column allows you to adjust the structure in height, from 50 to 100 cm; its strength is equal to 4000N. The backrest is adjustable with an electric actuator and is able to reach + 75 ° in positive and -10 ° in negative; the leg cushion also operated by an electric actuator reaches -90 ° in negative and + 5 ° in positive. The chair is equipped with a paper roll-holder and has 4 adjustable feet that guarantee greater stability. The structure follows a process of phospho-degreasing, rinsing and application of the powder paint polymerised at 200°C, its minimum thickness is 70/80 microns. The finish is glossy.

### DIMENSIONS:

Length: 182cm

Width: 68cm

Height: 57-98cm

PORTATA  
CAPACITY

PESO  
WEIGHT

## PADDING

The padding is in high-density rubber, its cover is in coated fabric (skai, imitation leather), fire-retardant class 1 IM, washable with common detergents on the market.

IMPERMEABILE  
WATERPROOF

IGNIFUGO  
FIREPROOF

## AVAILABLE COLOURS

## OPTIONAL

- COD.3XL47.2 IV pole
- COD.3XL47.3 4th actuator for Trendelenburg position
- COD.OPT3.3XL47 Rectangular stainless steel container for instruments
- COD.OPT3.3XL Retractable wheels kit
- COD.OPT6.3XL Wheel kit with arch system
- COD. 3XLQR Quick-release (quick release on the backrest)
- COD. OPT1.3XL37 Foldable side handles

## CONFORMITY

Class 1 medical device complying with the requirements of the Regulation (EU) 2017/745 (MDR)

### NATIONAL CLASSIFICATION OF MEDICAL DEVICES (CND)

Manufacturer: CALDARA SRL

Code attributed by CALDARA SRL: 3XL37P

CND classification: V08020101

Progressive number assigned by the system (RDM): 2225488
